# Naples

Vibrant, passionate, unique: words which perfectly describe the city and the bay lying in the shadow of Vesuvius. A land home to ancient traditions, archaeological and artistic treasures, and the world's most enchanting islands and coast. A wonderful climate, a spectacular sea, and magnificent cities constructed centuries ago by the ancient civilizations who passed through the gulf, leaving behind them the traces of their art and architecture. The Bay of Naples, rich in archaeological, artistic, and monumental works, is renowned for the warmth of its inhabitants and their passion for music, dance, and the dramatic arts. From the vibrant and densely populated city of Naples to the ruins of Pompeii, the bay offers a series of unique and unforgettable town and seascapes. Vying with the beauties of the mainland, across the water lie the three small islands of the gulf – Procida, Ischia, and Capri.

Naples' historic city centre is the largest in Europe, covering 1,700 hectares, and is listed by UNESCO as a World Heritage Site. The UNESCO evaluation committee described Naples' centre as being "of exceptional value", and went on to say that Naples' setting on the Bay of Naples "gives it an outstanding universal value which has had a profound influence". Naples' 2,800-year-history has left it with a wealth of historical buildings and monuments, from medieval castles to classical ruins
