We are a modern entrepreneurial organization specializing in the management of national and international congress events, particularly in the medical and scientific sector.

- As members of **FEDERCONGRESSI&EVENTI**, the premier national association representing public and private enterprises involved in congresses, conferences, seminars, and other incentive, communication, and aggregation events, we proudly adhere to industry best practices.
- We independently manage our congresses, offering comprehensive 360-degree services, from graphic design and communication to sponsorship acquisition and scientific management, ensuring tailored solutions and meticulous attention to detail in the final stages of the event.
- We have obtained Quality System Certification in compliance with the UNI EN ISO 9001:2015 standards from **TÜV Italia**. We provide our clients with expert consultancy, assistance, and the highest level of professionalism.
- **MePA**: We are registered and authorized for online purchases in the Public Administration's electronic marketplace.

### CERTIFICATION IN GYNECOLOGICAL ENDOSCOPY

Following the joint declaration of the most important international scientific societies regarding the requirements for training in gynecological endoscopy, in order to ensure high-quality surgery for patients, the **ESGE**, in collaboration with affiliated scientific societies and the Academy, has developed the **GESEA PROGRAM**, the **first program for training and certification in gynecological endoscopy**.

At the Department of Gynecology in Naples, equipped with a pelvic center, we organize monthly courses for HYSTT, SUTT, and LASTT models.

An online scoring platform is also active, where individuals or groups, during psychomotor skills training, can enter their data and monitor their learning curve, thus objectively evaluating their preparation for the certification exam.

**At the Naples center, we also offer the possibility to take exams for the 1st level "BACHELOR IN ENDOSCOPY" and 2nd level "Minimal Invasive Gynecological Surgeon - MIGS Certificate."**

# Partners

We have been collaborating for years with companies in the pharmaceutical and medical-surgical device sectors, and many of them have renewed their trust in us by signing long-term collaborations for corporate conventions and traveling training courses

## **SURGEON AND CITIZEN FOUNDATION (ACOI)**

New Congress is a partner of the Surgeon and Citizen Foundation. It designed its image and project and manages its communication and institutional and training activities.

Founded by the ACOI scientific association, the Foundation simultaneously addresses both surgeons and citizens, raising awareness among surgeons about the value of **relationships** and convincing citizens of surgeons' willingness to engage in different types of relationships, including dialogue and sharing.
